

Food & Feed Safety and Hygiene

Policy Statement 2019

Fundamental to its belief that being successful in its mission depends on the supply of safe products and services, it is Sedalcol UK Ltd responsibility to ensure the product safety of all product it manufactures.

In addition to its Quality Policy, Sedalcol UK Ltd is committed to maintain the confidence of its customers in the food and feed industry by meeting or exceeding their expectation on the food and feed safety, in broad sense referred to as “product safety” in this policy.

In compliance with its core values this is translated in its everyday business as follows:

1. Safety

Sedalcol UK Ltd meets and exceeds statutory and regulatory requirements on product safety for all end products and production processes intended to the food and feed industry.

Sedalcol UK Ltd ensures that suppliers and subcontractors for products and services embrace the same commitment to product safety, in accordance with its internal standards.

Sedalcol UK Ltd has a Food Defence program in place protecting it from deliberate acts against its premises, staff and produced products.

2. Customer focus

With regards to product safety, Sedalcol UK Ltd sets up close relationships with its customers to understand their requirements and expectations provide timely and accurate responses to customer complaints and monitor customer satisfaction.

Sedalcol UK Ltd sets up programs for critical product safety elements ensuring compliance with HACCP (Hazard Analysis Critical Control Points), allergen management, foreign bodies control, personal hygiene, good manufacturing and cleaning practises, pest control and emergency response preparedness.

3. Initiative

Sedalcol UK Ltd sets up suitable channels for internal and external communication in order to ensure that its employees, customers and any other business partners are fully informed and aware of our commitment and expectations on product safety.

Sedalcol UK Ltd maintains records and documentation to demonstrate compliance with manufacturing specifications and policies. Regularly reviews, verifies and validates the effectiveness and efficacy of the product safety management system and compliance with its targets via Management Review, HACCP review and Product Review.

4. Team Spirit

Sedalcol UK Ltd ensures sustainable product safety through implementation and certification of effective product safety management system: FSSC 22000 for food safety, EFISC for feed safety and our Internal Standard for “FES – Food Safety”.

Sedalcol UK Ltd supports Production Excellence by ensuring well-understood responsibility and accountability of every employee regarding the product safety of its product and services.
