

Quality Policy

Since 1995, the **SEDAMYL** Group has been committed to maintaining ISO 9001 certification for its Quality Management System. This strategic choice has enabled Sedamyl to become an increasingly reliable and well organized group, strengthening the trust of customers and stakeholders and establishing a leading position in the production of starches, glucose syrups, proteins and alcohol for the food and beverage, paper and corrugated board, green chemistry and animal nutrition industries. The **Quality Management System** is implemented into all company processes and activities with the aim of:

- delivering products and services that meet customer requirements and expectations;
- considering the needs of both internal and external stakeholders;
- ensuring full compliance with applicable laws and regulations.

The **key quality tools** are:

- a process-based approach to plan and manage processes and their interactions;
- the Plan Do Check Act (PDCA) cycle to ensure effective process management, monitoring, adequate resources and continuous improvement;
- Risk-based thinking to identify the factors that could cause its processes to deviate from the planned results, to put in place preventive controls and actions to minimize negative effects and to make maximum use of opportunities as they arise.

Key principles of the Quality Management System include customer focus, leadership, employee engagement and motivation, evidence based decision making, demonstration of compliance with ISO 9001 requirements and effective relationship management. The **benefits** are increasing **customer satisfaction**, improving overall **business performance** and supporting the development of **sustainability** strategies. Top Management is fully committed to the continuous improvement of the effectiveness of the Quality Management System.

To enhance efficiency, Sedamyl has **integrated** its management systems covering quality, food and feed safety, environment, occupational health and safety, energy. This integrated approach supports certification against internationally recognized standards, ensures compliance with legal requirements and provides effective tools to address **global challenges** such as climate change, while reinforcing sustainable growth.

Sedamyl has certified its products in accordance with Kosher and Halal requirements and is committed to complying with the relevant guidelines issued by the respective certification bodies.

The Sedamyl Group recognizes people as a key value, promoting a safe working environment and supporting professional development to create shared value. Through its Code of Ethics, the Group fosters integrity, transparency and social responsibility.

Quality culture is an integral part of the identity of the Sedamyl Group which is built on the **Values** of "Passion, Excellence, Respect and Agility," operates within its **Mission** "To deliver products of the highest quality, create value, and help society address today's and tomorrow's challenges," and ultimately aspires to its **Vision** "To improve people's lives by enhancing the potential of nature."
